SURVEY QUESTIONNAIRE

Dear Respondent:

We are the researchers of Philippine Women's College of Davao specializing BS in Information Technology of the Tertiary Education Department. As part of our research titled "Helpnow: Emergency Hotline at your Fingertips", We are conducting a survey to gather data that will contribute to a better understanding of faster emergency response by providing quick access to emergency hotlines. The goal of this mobile application is to decrease the time for responding, to provide a safety environment within the community, and to improve the preparedness in crisis phenomenon. Your participation in this survey is entirely voluntary, and you may choose to withdraw at any time. The information you provide will be treated with the utmost confidentiality and will only be used for academic purposes. No identifiable personal data will be disclosed in any part of the study.

The questionnaire will take approximately 15 minutes to complete. Your insights are highly valuable and will greatly contribute to the success of this research.

Instructions: Please read each statement carefully and indicate your response by marking (e.g., \checkmark) the appropriate box that best reflects your opinion or experience. Your answers should be based on your honest assessment. There are no right or wrong answers.

PART I: Demographic Profile Please provide the following information: 1. Age: _____] 2. Gender: [] Male [] Female [] Prefer not to say 3. Grade Level: 4. Strand:

PART II: Survey Items

Instructions for Scaling: Use the following scale to indicate the extent of your agreement or experience:

- 1 Strongly Disagree
- 2 Disagree
- 3 Neutral
- 4 Agree
- 5 Strongly Agree

Indicators	5	4	3	2	1
Homepage					
1. Hotline numbers					
2. Call for help hotline numbers					
3. Rescues included in the application					
Engagement					
1. I can use the application easily					
2. I can use the application offline					
3. I did not experience a bug in the application					
4. I find it easy to look up for numbers when I'm in an emergency					
situation					
5. Everyone can use the application					
Functionality					
1. I find the application accessible to use					
2. I can find the information I need in the application					
3. All the hotlines needed are on the application					
4. The application perform its purpose					
Aesthetic					
1. I find the design of the application pleasing to the eye					
2. I find the choice of colors appropriate to the app					
3. I find the font readable					
4. The overall design of the app contributes to its usability and					
effectiveness.					
5. I find the elements of the application appropriate					
6. I find it pleasing because the design is simple and overused.

VALIDATION SHEET

Strand:					
TEMS 1 2 3					
1 2 3 1. Clarity and Direction Items The vocabulary level, language, structure, and conceptual level of the questions suit the level of respondents. The directions and the items are written in a clear and understandable manner. 2. Presentation and Organization of Items The items are presented and organized in logical manner. 3. Suitability of Items The items appropriately represent the substance of the research. The questions are designed to determine the conditions, knowledge, perceptions, and attitudes that are supposed to be measured. 4. Adequateness of Items per Category The items represent the coverage of the research adequately. The number of questions per area category is representative enough of all the questions needed for research. 5. Attainment of Purpose The instrument fulfills the objectives for which it was constructed. 6. Objectivity
